TRACK OF TRUST

UN-4

Designed for implement machinery, and trailers, UN-4 offers a cost-effective solution for soil tillage and haulage applications, making it an essential choice for mild operating conditions. Its optimized design makes it particularly suited for stubble-free or low-stubble farmlands, ensuring maximum performance with minimal soil disturbance.

Key Features:

Versatile Use

Performs efficiently both on roads and agricultural fields.

Durable Textile Structure

Reinforced materials ensure a long-lasting lifespan.

Cost-Effective

Optimized for maximum efficiency with minimal operating costs.

Available Size:

10.0/75-15.3 123A8

10.0/75-15.3 126A8

10.0/75-15.3 130A8
