Welcome to the first volume of The Petlas Tire Corp. Bulletin

Merhaba Hallo Bonjour Ciao
Halo Hola
Salutes! مرحبا 你好
Здравствуйте
Hello こんにちは **From Petlas Tire Corp.**

No one could have estimated in 1976 that a tire factory, which was built as a state enterprise in the middle of the Anatolian plateau, would be among Europe's biggest manufacturers, **even taking firm and fastmoving steps towards being a global player in tire industry.**

Petlas Tire Corp. is ready to realize to act much more effective and one-dimensional in the with its global vision. **Petlas sees that vision as the core of its progress and power.**

petlas
TRACK OF TRUST

Petlas Tire Corp. is a group company of Abdulkadir Özcan Inc. (AKO Group)

2

Petlas Tire Industry and Trade Corp. began producing tires in the early 1980s to compensate Turkey's needs of defense industry and in 1997 Petlas was privatized, but the remarkable development happened in and after 2005 when Petlas was purchased by Abdulkadir Özcan Inc.

Petlas Tires has widened its sales and operational network
with new offices in North and South America

South and North American tire markets,
Petlas's sales has boosted
deliberately.

Day by day, Petlas widens its sales and operational network to satisfy customer demands and act effectively with a problem solution oriented approach. In this regard, new developments came about in America's. As an outcome of having entered North America market 8 years ago, Petlas Tire USA LLC has opened in the USA to better serve and meet the needs of its customers.

As stated by Sinan Evcan, Country Sales Manager of Petlas Tire USA, the company will supply PCR, LMR, TBR, OTR and Agricultural tires to its customers in USA, Canada and Mexico.

Furthermore, Petlas has opened South America coordination office in Santiago, Chile to boost its sales in that part of the continent, too. As cited by regional sales manager Olug Dayan who is the responsible of the coordination office, the operations and sales activities apparently have increased after opening the Chile office last year, especially in agricultural range. As a result these steps taken by Petlas Tire in Corp., Petlas's sales has boosted considerably in South and North American markets.

These steps are just a beginning. These offices are pioneers of upcoming offices. Petlas is carrying out base research and legislative understructures to open new offices in key parts of the world.

petlas
TRACK OF TRUST

Petlas has opened South America coordination office in Santiago, Chile to dominate its sales operations in that part of America too.

Petlas Tires has widened its sales and operational network
with new offices in North and South America

Petlas's Business is You.

Petlas Tire Corp. exports tires from East to the West and have distributors in more than 100 countries now. Petlas Tire Corp. International sales and marketing department is ready to give the best service to you with a broad, experienced and multilingual sales and marketing team.

Petlas has opened South America coordination office in Santiago, Chile to dominate its sales operations in that part of America too.

petlas
TRACK OF TRUST

Being a market leader in the North Africa, Middle East, CIS countries far off the road tires, Petlas Tire Corp. aims to be among the top three companies in agricultural and off the road production in the world tire industry in the next 10 years of time. **This is the main challenging goal of the company.** To realize these future goals mentioned before, Petlas works hard to open new coordination offices and warehouses in several countries. In parallel with that, Petlas gives utmost importance to improving its production capacity day by day, using its own know-how to satisfy all domestic and international customers demand. Now, the company manufactures **100% of the products with its own know-how.**

On the other hand Petlas Tire Corp. is keeping a very close eye on technological developments as the company is well aware that keeping pace with the fast changing technology is an absolute must for customer satisfaction, the sustainable growth, the future, the leadership in the industry.

Dealers Meeting Has Taken Place in Palestine and Israel

Petlas Tire Corp. international sales and marketing director Mr. Oguz Ay and dealers have come together in Palestine and Israel.

Petlas will continue to work very intensively to satisfy demands came from distributors and dealers even the worse economic conditions in Palestine and Israel.

petlas
TRACK OF TRUST

- **First meeting** was held with our distributor Al Salameh in Ramallah-Palestine. About 120 dealers attended at this meeting. At the meeting a presentation was made by Mr. Ay about Petlas and conversations was made about Petlas's today and future plans. Mr. Ay introduced Petlas new product ranges in the meeting.
- **Second meeting** was organized by Abusbeih. At the meeting, Mr. Ay had chance to give informations about our Starmax tires. About 30 firms were invited for that meeting took place Jerusalem- Palestine.
- **Third meeting** took place in Caesarea. Organization hosted by the company of Hatzav. There was a vast participation to this meeting. More than 500 guests from 350 dealers attended that organizational meeting. At the end of the meeting, Hatzav organized a sweepstake and awarded an automobile to one of its dealers.

Al Salameh's Meeting

Hatzav Car Sweepstake

Mr. Ay with distributors

Palestine and Israel dealers meetings were very productive. To get a chance to meet and discuss with dealers was a great opportunity to introduce products and talk with them face to face about plans for the future. Petlas will continue to work very intensively to satisfy demands from distributors and dealers despite the worsening economic conditions in Palestine and Israel.

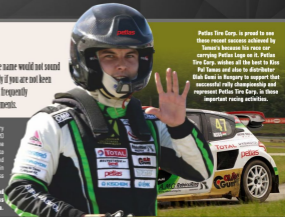

Hungarian Crowned Rally Champion continues his achievements

Kiss Pal Tamas,

is a newly shining star in car races across the Europe, the name would not sound familiar to you if you are not a fan of motorsports, especially if you are not keen on car racings. However, the Hungarian car racer's name is frequently mentioned in racing world as a consequence of his achievements.

In his first rally season, in 2011, he achieved an important victory at Barcelona only his second race weekend in the series the 20 year old rookie won the sprint race. Then, one year later he achieved his greatest result in the history of Hungarian auto sports by coming in second and even at DP3 Series Monaco Grand Prix. He has continued his success with lots of victories in important races and he is crowned as Hungarian rally-cross champion.

Kiss Pal Tamas concluded 2016 season as the best racer and he was on the podium at FIA European Rally-cross Championship held between 1-2 October 2016 in Riga, Latvia.

Petlas Tire Corp. is proud to see these recent success achieved by Tamas's because his race car carrying Petlas Logo on it. Petlas Tire Corp. wishes all the best to Kiss Pal Tamas and also to distributor Grah Gumi in Hungary to support that successful rally championship and represent Petlas Tire Corp. in these important racing activities.

Kiss Pal Tamas concluded 2016 season as the best racer and he was on the podium at FIA European Rally-cross Championship held between 1-2 October 2016 in Riga, Latvia.

Two teams supported by Petlas's sponsorship challenged each other in a scrimmage

Petlas Tire Corp. renewed
sponsorship agreement with
Apollon Patras
for 2016-2017 basketball seasons.

**Petlas is happy to support Apollo Patras
in that historically important season.**

As Petlas Tire Corp. always pay attention to supporting all kind of sportive activities. In this regard, since 2014 Petlas Tire Corp has been supporting the rooted Greek basketball team Apollon Patras. In the past couple of months we renewed our sponsorship agreement with this club for 2016-2017 basketball seasons.

As a result of some problems took place in the team, Apollon Patras ended 2015-2016 Greek basketball leagues ranking tenth, and these problems seem to continue in the team, as Apollon Patras could not make a good start for 2016-2017 season. A speedy recovery for this year has an utmost importance for Apollon Patras because they celebrates their 50th foundation anniversary of the team. Petlas is happy to support Apollo Patras in that historically important season.

Apollon Patras competed with Pinar Karşıyaka from Turkey Spor Toto Basketball League in a scrimmage. The match took place in Apollon Arena. Apollon Patras has celebrated its birthday before the match with a ceremony. The match was highly contested. Apollon Patras played very well in first half of the game. However in the last half Pinar-Karşıyaka played a very organized and came on top defeating Apollon Patras with the score 81 to 69.

Petlas is aware that all types of sportive activities are important for building a better future and constructing close relations between all humankind. That's why Petlas Tire Corp. will always be eager to support sportive activities. Link to that, Petlas Tire Corp. signed a sponsorship agreement with Pinar Karşıyaka basketball team for 2016-2017 seasons and is very proud to support this successful team.

Petlas is ready to all kind of challenging roads

As mentioned, Petlas Tire Corp. follows technological developments in the industry very closely. As a result of that policy Petlas has started to implement Run Flat Technology (RFT) on many sizes. Recently, this technology has been implemented on 6x4-SUV tires as well. 255/50 R70 A/T, with PT421 Explora pattern, is now available and new sizes with new tread designs, are also on the way.

Petlas Tire Corp. range of 4x4-SUV tires are designed to meet user needs for both and off-road.

PT421

4x4
SUV

There is a horizon behind you.
Don't be afraid to travel on challenging roads.

Petlas tires create new opportunities for you to discover the new areas or re-discover your familiar roads again and again with its ultimate quality. With its latest technology developed by the combination of superior performance and durability, Petlas tires are the best choice for drivers who want to enjoy driving.

Petlas is well aware of customer needs and their satisfaction. For that reason, Petlas is dedicated to developing first quality tires by following the latest technology and using its own know-how. In this regard, in 2011, first 4/T SUV tire came from production line and after a year 4x4-SUV tires have been released to mass production. So, Petlas Tire has added another new range into its wide tire spectrum. Since then, company has focused on increasing its production capacity to meet customer's needs.

Petlas tires are ready for any kind of challenge. You can find Explora PT421 A/T, Explora PT411 A/S, Explora PT421 A/T and Explora WS71 patterns under Petlas brand. PT411 and PT421 patterns are for all season usage. PT421 is produced for summer and WS71 is suitable with winter conditions. Petlas 4x4-SUV tires can be found in more than one hundred different sizes with aspect ratios ranging from 45 to 55.

Enjoy the run flat (RFT) performance with Petlas PT741 Velox Sport

17

Petlas Tire Corp. is aware of customer needs and gives importance to their satisfaction. For that reason, Petlas Tire Corp. is dedicated to developing first quality tires by following the latest technologies and using its own know-how. In this regard, Petlas designs and manufactures tires in a wide range to meet customer needs in all ways. RFT technology is just a part of that approach.

Petlas tires offer ultimate safety, efficiency and price-utility equilibrium among different RFT technologies as a result of reinforced sidewall principle.

RFT

This technology prevents squeezing of tire's sidewall between road and rim, also in case of a loss of tire pressure, this technology allows the driver to ride about 150-200 km at 80 km/h max. speed depending on weather and vehicle load conditions.

Currently available RFT sizes in Petlas are 185/55 R16, 205/55 RF16, 225/55 2R17, 205/50 2R17, 225/50 2R17, 245/45 2R18, 245/45 2R19, 245/40 2R18, 245/40 2R19 and 255/35 2R19. In addition to these sizes, 225/45 RF17, 225/45 RF18, 225/40 R18, 225/40 R19, 275/40 R19, 235/35 R18, 275/35 R18, 275/35 R19, 275/35 R20, 265/35 R18, 265/35 R19, 285/30 R19 and 285/30 R20 are under development and they will be released from production line very soon.

If you have its power behind you, all of the roads are yours.

Petlas Run Flat Tires offer ultimate safety with excellent handling on both wet and dry surfaces. On the other hand, Petlas PT741 is compatible with standard size rims and you can continue to drive even after a blow-out. As a result of its asymmetrical pattern design which keeps tire profile pattern more solid compared to other standard tires and provides a good grip to the rim after a blow-out situation.

Petlas RFT tires also comply with United Nations Economic Commission for Europe Regulation No: 30 Test measures. In relation to this regulation, PT741 keeps its uniformity at the end of the one hour drive with zero air-pressure at 80 km/h speed.

TBR
TRUCK & BUS

Petlas Tire Ind. pays special importance to become an environment friendly producer to protect the environment and accordingly produces eco-friendly tires such as Petlas NR100 PROGREEN. According to some independent user tests, there is a saving of nearly 1.500t of fuel per 150.000km distance when we compare E rolling resistance labeled tires to C rolling resistance labeled tires. These values account for the importance of the environmental friendly (low CO2 footprint) tires for the nature and of course for the vehicle owners.

NR100

What makes Petlas TBR tires special? Test results show Petlas TBR tires have more effective grip on wet surfaces compared to other tire brands according to The European Union tire label standards. So, Petlas TBR tires offer drivers more stability and safe driving on wet surfaces. In addition to that, special components of Petlas TBR tires offer high levels of durability and cost efficiency for long haul, urban, on/off-road and winter drivers.

The motivation behind the Petlas Tire Corp. originates from the needs of people. People want to travel safely and receive their deliveries on time. Petlas Tire Ind. is investing on its R&D works day by day not only just to produce tires for all kinds of vehicles but also to protect and carry the future. So, for the future, it's time to hit the road with Petlas now.

TRACK OF TRUST

Petlas: Your connection to the ground

After the establishment of Petlas Tire Factory in 1976, Petlas produced its first agricultural tire in 1989.

AGRI

From that day to the present Petlas continues to add new sizes and new tread design to agricultural tire range.

It is easy to say that you can find an appropriate tire for your machine from among the wide tire range of Petlas tires, ranging from 16" to 54". Both bias and radial tires are available. Here are the patterns available in Petlas: For tractor front: TD17, TD25, TP8, TD16, TD18, TA60, TZ13; for tractor rear: TA60, T290, TA300, TA330; for harvesters: PB 140 AGROPER (Radial), UN3, B080, B065, UN1, TA330; for trailers: HIT 45 VF (Radial), UN1 (S Rad), NB37, UN1, UN3, UN7, STB3, NT3, PA20, NB27, NB37; for forestry and flotation: IMF18, IMT18 and IMT08. In addition to these, radial tires such as TA110, TA120, TA130 and TA140 are ready to serve ultimate performance to its customers under all kind of challenging conditions.

petlas
TRACK OF TRUST

IMPROVED FLEXION AND LIFE IN EVERY MARCH THAT INCLUDES FLEXION.

petlas

What about new technologic development in agricultural tires? Improved flexion (F) tires released from production line under TA130/70 series. That technology allows the tires to be used with lower pressure for the same load capacity and it offers farming efficiency with higher load capacity.

Also radial harvester front tire TA130/75 AGROPER pattern has become prominent thanks to its aramid belt structure technology. This belt makes your tire about five times stronger than steel belted versions allowing the vehicle to carry more weight per tire.
