315/80 R22.5	154/150M (156/150L)

### PATTERN PROPERTIES

- Computer designed tire profile and block arrays offer safe and balanced driving.
- Optimised tread design provides resistance against irregular wear by balancing the pressure equally under load.
- Special tread compound and robust structure ensure longevity and economic fuel consumption.
- Excellent carcass structure is suitable for retreading several times.
- Offers excellent grip and short braking distance with numerous sipes and z-shaped circumferential blocks.
- Circumferential grooves discharge water quickly and efficiently.

### POSITION/APPLICATION

• Blue optional

# LONG HAUL TIRES

## SH 105

SH 105 is a steer pattern that is designed for trucks. It provides comfort and maneuverability for a balanced drive on asphalt roads. Wide tread area and multi dimensional sipes improve mileage and enhance traction. Offers outstanding grip on both wet and dry roads.

TIRE SIZE

LOAD/SPEED INDEX

11 R22.5

152/148M

### PATTERN PROPERTIES

- Wide shoulder blocks provide lateral balance for a smooth drive.

- Circumferential grooves drain water quickly and efficiently.

- Indented sides of the blocks provide safe brake distance even if the tire is worn.

- Optimized tread design provides resistance against irregular wear by balancing the pressure equally under load.

- Special tread compound and robust structure ensure longevity and economic fuel consumption.

- Medium density sipes provide superior handling and decrease braking distance.

- Excellent carcass structure is suitable for retreading several times.

### POSITION/APPLICATION

• Blue optional

## SH 110 PROGREEN

Progreen is suitable to use on all axles on buses and at steer or non-powered second axle on trucks. Special tread pattern design ensures even wear throughout the tyre's lifespan. Multiple grooves allow fast water discharge and provide exceptional wet handling on asphalt roads. Wide tread area and multi dimensional sipes improve mileage and enhance traction. Offers outstanding grip on both wet and dry roads.

TIRE SIZE	LOAD/SPEED INDEX

385/65 R22.5	164K
385/55 R22.5	160K

### PATTERN PROPERTIES

- Optimized tread pattern improves resistance against irregular abrasion by distributing pressure equally under load.
- Numerous sipes on the ribs enable exceptional grip.
- Circumferential grooves provide quick and efficient water discharge.
- Computer designed tire pattern and five circumferential ribs ensure a balanced and comfortable drive.
- Special tread compound and robust structure enhance efficiency of fuel consumption and improves longevity.
- Exceptional carcass structure is suitable for retreading.

### POSITION/APPLICATION

• Blue optional

# LONG HAUL TIRES

## RH 100

RH 100 is a drive axle pattern designed for busses and trucks. Provides exceptional traction on asphalt roads. Block array decreases wear and increases wet grip. Optimized tread profile provides resistance against irregular wear under heavy loads. Delivers a safe drive and extended mileage in demanding weather conditions. Suitable for retreading.

<b>315/80</b>	<b>R22.5</b>	154/150M (156/150L)

### PATTERN PROPERTIES

- Optimized tread design provides resistance against irregular wear by distributing the pressure equally under load.
- Circumferential and lateral grooves drain water quickly and efficiently.
- Block array structure provides high traction by generating numerous road adherence points on asphalt in any kind of weather conditions.
- Special tread compound and robust structure ensure longevity and enhance fuel efficiency.
- Excellent carcass structure is suitable for retreading.
- Optimized tread depth increases the tire's lifespan.

### POSITION/APPLICATION

# SR 750

SR 750 is an all position truck tire which meets and exceeds all US Governmental Standard. It provides balanced drive, excellent comfort and superior maneuverability. It is suitable for retreading with its highly endured carcass structure.

*For U.S. Market Only*

TIRE SIZE		LOAD/SPEED INDEX
11	R22.5	146/143L
11	R22.5	144/142M
11	R24.5	149/146L

295/75	R22.5	146/143L
295/75	R22.5	144/141M

### PATTERN PROPERTIES

Provides comfortable drive and even wear thanks to its computer-generated prime number of block types and block sequence.

Provides superior drive comfort and resistance to uneven wear thanks to its 5 rib design with a rib at center.

Disperses water effectively with its circumferential grooves. Minimises pebble lodging into grooves with its pebble removers.

### POSITION/APPLICATION

# LONG HAUL TIRES

## DR 820

DR 820 is drive axle truck bus tire with closed shoulder design which meets and exceeds all US Governmental Standard. Its computer-generated prime number of block types and block sequence provides comfortable drive and even wear.

*For U.S. Market Only*

TIRE SIZE	LOAD/SPEED INDEX
11 R24.5	149/146L
11 R22.5	144/142M
11 R22.5	146/143L
295/75 R22.5	144/141M
295/75 R22.5	146/143L

### PATTERN PROPERTIES

Provides equal pressure distribution by its optimised crown profile and 4 steel belted design. This creates resistance to uneven wear.

Ensures equal tread pressure distribution and even wear from shoulder to center with its closed shoulder 4 rib design.

Disperses water effectively with its circumferential grooves. It minimises pebble lodging into grooves with its pebble removers. It provides long tread life with its increased tread depth.

### POSITION/APPLICATION

## SZ 300

SZ 300 pattern is designed for light commercial vehicles and suitable to use on all axles. Strong carcass structure provides high retreadability feature. Delivers balanced drive, perfect comfort and high maneuverability on asphalt roads. Provides exceptional wet grip. The unique pattern design enhances mileage performance.

TIRE SIZE	LOAD/SPEED INDEX
8.5 R17.5	121/120L
215/75 R17.5	126/124M
225/75 R17.5	129/127M
235/75 R17.5	132/130M
245/70 R17.5	136/134M
265/70 R17.5	140/138M

### PATTERN PROPERTIES

Unique pattern design and optimized block array provides excellent steering performance.

Horizontal sipes between circumferential blocks increase traction, decrease braking distance and provide outstanding grip on wet roads.

Z-shaped block structure provides excellent traction and secure braking performance.

Stone rejecters inside the grooves prevent pebble penetration inside grooves, protecting the tread and carcass.

Circumferential grooves drain water quickly and efficiently.

Provides long life and resistance to irregular wear thanks to its special belt construction, optimized footprint and rigid shoulders.

All steel construction and specifically designed low profile structure meet all highway usage criteria and offer superior comfort.

### POSITION/APPLICATION

• Blue optional

# REGIONAL TIRES

## RZ 300

RZ 300 is drive axle (traction) pattern designed for light commercial trucks and busses. Having 3PMSF and M+S, RZ300 provides exceptional grip and braking on snowy roads. Delivers high mileage thanks to its special compound.

TIRE SIZE	LOAD/SPEED INDEX
8.5 R17.5	121/120L
215/75 R17.5	126/124M
225/75 R17.5	129/127M
235/75 R17.5	132/130M

TIRE SIZE	LOAD/SPEED INDEX
245/70 R19.5	136/134M
265/70 R17.5	140/138M
245/70 R19.5	136/134M

### PATTERN PROPERTIES

-  The sipes between the blocks offer enhanced traction, shortened brake distance and excellent wet grip.
-  Circumferential and lateral grooves ensure quick and effective water discharge.
-  All steel construction and specifically designed low profile structure meet all highway usage criteria.
-  Special belt construction and optimized footprint offer long life and provides resistance against irregular wear.
-  Provides long life and resistance to irregular wear thanks to its special belt construction, optimized footprint and rigid shoulders.
-  Optimized tread depth provides increases the tire's durability and lifespan.
-  Interconnected blocks improves longevity.

### POSITION/APPLICATION

## NH 100 PROGREEN

M+S

NH 100 Progreen is a free rolling trailer tire specifically designed for fuel efficiency. It provides exceptional wet grip performance. Its strong carcass structure ensures longevity and reduces irregular wear.

TRAILER AXLE

■ Five tread blocks enhance resistance to irregular wear.

■ Innovative tread design and compound deliver low rolling resistance and enhanced durability.

### POSITION/APPLICATION

# MIXED SERVICE TIRES (ON-OFF)

## SC 700

M+S

SC 700 is an all position pattern for mixed service (On and Off road) use. Strong carcass structure delivers exceptional resistance to cutting and chipping. Wide footprint enhances handling and stability while improving mileage. Suitable for retreading multiple times.

MIXED SERVICE

### EU LABEL

Average values from all sizes of this specific model.

TIRE SIZE	LOAD/SPEED INDEX
12 R22.5	152/148L
13 R22.5	156/150K
315/80 R22.5	156/150K (154/150L)

### PATTERN PROPERTIES

- Special pattern design with blocks of different sizes reduces pattern noise.

- Wide and closed shoulder structure increases lateral balance and enhances damage resistance.

- Stone rejecters located among blocks minimize pebble penetration inside grooves.

- Four circumferential grooves drain water, mud and snow quickly and efficiently, improving handling and increasing service life.

- Special tread compound provides resistance to wears, cuts and breaks.

- Offers superior handling and braking performance on roads and construction sites with zigzag block structure.

- Excellent carcass structure is suitable for retreading multiple times.

- Reinforced interconnected blocks provide a balanced and comfortable drive.

### POSITION/APPLICATION

## SC 710

M+S

SC 710 is developed to withstand the challenging conditions of construction sites and off-road use, while simultaneously providing perfect highway performance with extended mileage and improved fuel efficiency features.

MIXED SERVICE

### EU LABEL

Average values from all sizes of this specific model.

TIRE SIZE	TL/TT	LOAD/SPEED INDEX

12.00 R24	TT	160/157K
315/80 R22.5	TL	156/150L

### PATTERN PROPERTIES

- Strong circumferential ribs provide maximum resistance against cuts and chips.

- Wide channels located on the shoulders improve traction on harsh working conditions including muddy roads.

- Zigzag block structure ensures perfect grip and safe braking performance.

- Stone ejectors located on groove bases avoid pebble penetration and saves the carcass.

- Optimized tread profile evenly distributes weight on the footprint to guarantee long service life by avoiding irregular wear.

- Special tread compound provides durability for off-road operations and offers comfort and low rolling resistance for highway use.

- Three channels with wide angles enhance traction on challenging roads by effectively discharging water and mud.

- Steel belted carcass is strong enough to be retreaded several times to multiply the tire's service life.

### POSITION/APPLICATION

# MIXED SERVICE TIRES (ON-OFF)

## SY 800

Closed structure and pattern compound are specifically engineered for construction and mining site conditions to offer long life and ultimate wear and cut resistance. Provides excellent grip and handling on tough or muddy roads.

### PATTERN PROPERTIES

-  Optimized tread profile improves resistance against irregular wear by distributing pressure equally under heavy load.
-  Wide and closed shoulder structure improves lateral balance and damage resistance.
-  Stone ejectors among the blocks avoid pebble penetration inside grooves.
-  Three circumferential grooves improve handling and traction by effectively discharging water, mud and snow.
-  Specially engineered tread compound and wide blocks provide resistance to wears and cuts.
-  Zigzag block structure offers outstanding handling and braking performance on roads and construction sites.
-  Strong and durable carcass is suitable for retreading multiple times to maximize service life.
-  Interconnected blocks provide a balanced drive on road, while increasing durability on site conditions.

### POSITION/APPLICATION

# MIXED SERVICE TIRES (ON-OFF)

## RC 700 PLUS

RC 700 Plus is a drive axle tire suitable for mixed service. It is developed to provide high mileage, damage resistance and maximum traction on asphalt and on construction sites. It has a 3PMSF and M+S which means it is approved to use on snowy roads.

MIXED SERVICE

### EU LABEL

Average values from all sizes of this specific model.

### TIRE SIZE

### LOAD/SPEED INDEX

295/80	R22.5	152/148M
315/80	R22.5	156/150K (154/150L)

### PATTERN PROPERTIES

- Stone ejectors located deep of grooves decrease stone trapping.

- While reinforced interconnected blocks provide a comfortable drive on motorway it also increases block durability in construction site conditions.

- The directional, block-type tread pattern offers excellent grip and traction on wet, muddy and snowy roads in construction sites, while performing balanced performance on asphalt.

- The sipes between circumferential blocks increase traction on snowy and muddy roads, and provide short braking distance

- Block array with different block sizes improves comfort by minimizing noise.

- Optimized groove design enables excellent water/mud/snow discharge.

### POSITION/APPLICATION

## NCW710

NCW 710 is a free rolling trailer tire suitable for mixed service (On and Off road) applications. Special compound enhances longevity by providing exceptional resistance against wear and tears.

TRAILER AXLE

### EU LABEL

Average values from all sizes of this specific model.

TIRE SIZE

### PATTERN PROPERTIES

Optimized tread pattern consisting of wide channels and big blocks provides superior handling and longevity on wet on muddy roads.

Reinforced interconnected blocks provide a balanced and comfortable drive while enhancing resistance towards tough site conditions.

Optimized grooves drain water, mud and snow quickly and effectively.

Unique tread design improves resistance against irregular wear by distributing pressure equally under load.

Special tread compound provides resistance to wears, cuts and breaks.

Strong carcass structure is suitable for retreading multiple times.

### POSITION/APPLICATION

# OFF ROAD TIRES

## RM 905

M+S

RM 905 is an all position pattern that is suitable for off operating service. Robust tread blocks provide exceptional resistance to tears and offer outstanding traction in tough road conditions. Offers excellent self-cleaning feature thanks to its special lug design.

OFF ROAD

TIRE SIZE

13 R22.5

LOAD/SPEED INDEX

156/150K

### PATTERN PROPERTIES

Reinforced block arrays provide steady driving performance at off road conditions.

Interconnected reinforced blocks enhance driving balance and offer resistance to chunks.

Open angled grooves drain mud quickly and eject stones effectively.

Provides high mileage along with steady off the road driving through optimized tread profile, full/empty rate and tread depth.

Exclusive compound provides endurance against wear-out, cuts, splits and laceration.

Durable carcass structure allows retreading.

### POSITION/APPLICATION

## SU 500

SU 500 is an all season bus tire that is suitable for all positions. Robust compound provides exceptional service for inner-city narrow streets and curbs with stop-and-go traffic. Delivers exceptional mileage performance. Offers high retreadability feature thanks to its strong carcass structure.

### EU LABEL

Average values from all sizes of this specific model.

### LOAD/SPEED INDEX

150/148J

**275/70 R22.5**

150/145J (152/148E)

### PATTERN PROPERTIES

Specially developed tread composition and four wide circumferential ribs separated with sipes provide ultimate performance and longevity in inner-city usage.

Z-shaped channels and thin sipes provide safety and traction on wet roads.

Circumferential grooves drain water quickly and efficiently.

Optimized tread width and tread depth ensures longevity and resistance to abrasion.

Different size block array reduces tread noise level.

Friction indicators located on sidewalls enable controlling the levels of abrasion.

Reinforced sidewalls provide resistance against the impacts of friction to pavement while approaching bus stops.

Special tread composition offers high traction and safety under low temperatures.

### POSITION/APPLICATION

• Blue optional

## SUW 550

SUW 550 is suitable to be used as all position tire on inner-city vehicles. Robust compound provides exceptional service for inner-city narrow streets and stop-and-go traffic. Offers high retreadability thanks to its strong carcass structure. 3PMSF and M+S markings on the tire ensure better grip and braking on snow. Wide tread design enhances mileage of the tire.

### EU LABEL

Average values from all sizes of this specific model.

### LOAD/SPEED INDEX

150/145J (152/148E)

275/70 R22.5

152/148J

### PATTERN PROPERTIES

Five circumferential ribs provide safety, balanced driving and lateral resistance.

Z-shaped capillary sipes offer ultimate traction on snowy roads and improves safety by reducing brake distance.

Ensures effective water, mud and snow discharge thanks to four circumferential grooves.

Optimized block array reduces tread noise level.

Specially formulated tread composition and deep blocks provide ultimate performance and longevity by increasing resistance against abrasion caused by frequent stops.

Friction indicators located on sidewalls enable controlling the levels of abrasion.

Reinforced sidewalls provide resistance against the impacts of friction to pavement while approaching bus stops.

Special tread composition offers high traction and safety under low temperatures.

Optimized tread width and tread depth enhance longevity by improving resistance against abrasion.

### POSITION/APPLICATION

• Blue optional

## RUW 550

RUW 550 is designed for inner-city vehicles especially as drive axle of buses. 3PMSF and M+S markings on the tire prove better grip and braking on snow. Wide tread design enhances mileage performance of the tire.

TIRE SIZE	LOAD/SPEED INDEX
<b>275/70 R22.5</b>	150/145J (152/148E)
<b>275/70 R22.5</b>	152/148J

### PATTERN PROPERTIES

-  Specially developed tread composition and four wide circumferential ribs separated with sipes provide ultimate performance and longevity in inner-city usage.
-  Z-shaped channels and thin sipes provide safety and traction on wet roads.
-  Optimized tread width and tread depth enhance longevity by improving resistance against abrasion.
-  Unique tread composition offers high traction and safety under low temperatures.
-  Five circumferential ribs provide safety, balanced driving and lateral resistance.
-  Friction indicators located on sidewalls enable controlling the levels of abrasion.
-  Reinforced sidewalls provide resistance against the impacts of friction to pavement while approaching bus stops.
-  Reinforced interconnected blocks offer ultimate inner city performance.

### POSITION/APPLICATION

## RU 500

It is a drive axle city bus tire developed for use at low temperatures, on dry, wet and snowy surfaces. It can also be used on the front axle depending on the weather and road conditions.

### EU LABEL

Average values from all sizes of this specific model.

TIRE SIZE

**275/70 R22.5**

LOAD/SPEED INDEX

**150/145J (152/148E)**

### PATTERN PROPERTIES

Thin lamellas placed on the pattern with zigzag channels serve as holding elements. Provides traction and safety on snowy and wet surfaces.

Provides effective water/mud/snow discharge with three circumferential grooves. It minimizes the settling of stones in the channels with the stone pushers at the bottom of the grooves.

The specially developed tread compound provides the traction needed in winter conditions, on snowy and wet surfaces, with four wide circumferential ribs divided by a wide groove and then lamellas. It offers short braking distance.

### POSITION/APPLICATION

In severe winter conditions, the tire can be fitted to the front axle depending on road conditions.

# SH COACH

It is an all-axle bus tire developed to provide balanced driving, excellent comfort, and safety on asphalt. It offers low rolling resistance for fuel efficiency and long mileage, ensures safety in all-season use, and provides superior braking and traction on snow.

TIRE SIZE

**295/80 R22.5**

LOAD/SPEED INDEX

**154/150 M**

## PATTERN PROPERTIES

Offers low noise levels with an optimized tread pattern and specially designed block arrangement.

Protects the carcass with stone ejectors placed in the grooves, providing better retreading capability.

Provides superior grip in all seasons with blocks that have numerous sipes.

## POSITION/APPLICATION

## RH COACH

It is a drive axle bus tire developed to provide balanced driving, excellent grip, and safety on asphalt. It offers low rolling resistance for fuel efficiency and long mileage, ensures safety in all seasons, and delivers superior braking and traction on snow.

LONG HAUL

### EU LABEL

Average values from all sizes of this specific model.

TIRE SIZE

295/80 R22.5

LOAD/SPEED INDEX

154/150 M

### PATTERN PROPERTIES

Provides balanced and comfortable driving with an optimized tread pattern and specially designed block arrangement. Offers low noise levels

The blocks, separated by thin sipes, limits the movement of the blocks during traction and ensures even wear. It also offers low rolling resistance.

Provides high traction with high-density sipes placed on the blocks. It offers superior grip and safety in all seasons.
